COURSE DESCRIPTION

This course explores myriad challenges raised by media cultures for communities of faith. Questions of digital presence, communicative practices in digital cultures, constructive theological approaches to digital divides and other issues of justice, and positive use of diverse media in worship and mission are engaged. *Full course (1.0)*

Learning Objectives:

The following learning objectives have been arrived at through the research and work of scholars involved in developing a digital literacies toolkit for nurturing culturally competent communication and leadership in ministry. You can access their work here:

<https://www.digitalliteracytoolkit.org>

Through the semester we will work to ensure that students learn how to:

- navigate hybrid and digital cultures,
- convene hybrid and digital community,
- maintain a posture of experimentation,
- cultivate a spiritually wise habitus,
- present authentically and pastorally online,
- connect theology and media theory, and,
- create and curate faith-based media artifacts.

Specific Luther Seminary Program Objectives which this course supports include the following:

- MDIV: Graduates will testify to their baptismal callings that nurture the ongoing life of faith, hope, and love
- MA in LIM: Graduates will demonstrate the development of their own gifts for leadership in particular ministry contexts and within a critical understanding of leadership

- MA in CYF: Graduates will demonstrate the development of their own gifts for leadership in particular ministry contexts and within a critical understanding of leadership
- MA in CM: Graduates, within a diversity of contexts, will confess the character, identity, and work of the Triune God in the world

PEDAGOGICAL APPROACH

This course uses a combination of experiential engagement, cognitive study, and creative production assignments to support students in meeting the learning goals. It is offered in the spring of 2022 as an online course. Each week there will be a variety of content presentation, production exercises, and opportunities to participate in either asynchronous or synchronous conversation.

REQUIRED ASSIGNMENTS

Production assignments

During the semester students will do a series of short production assignments: (1) flipgrid to introduce themselves, (2) a photo reflection exercise, (3) a short animoto video, (4) an infographic suitable for inclusion in a church publication or a meme for social media, (5) a short audio piece, (6) a short digital video story, and (7) participate in creating a livestream prayer service.

Discussion and dialogue

During the term students will be put into small groups, which will meet once a week (scheduled by the group itself). These groups will have specific tasks, primarily to support each other in prayer, and to comment on production assignments.

There will also be a zoom room open on Friday mornings at 8 am central time, during which students will meet with the professor and each other to explore questions that arise. If a student cannot participate in that live session, there will be an asynchronous option available each week.

GRADING

Overall grade for the course will be determined using the following percentages:

Participation in dialogue and discussion	40%
Short production assignments (six individually each@ 10%)	60%

COURSE SCHEDULE

A word about scheduling:

The calendar below notes the basic themes of the course for each week, and specifies which assignments are due at which times. I have framed these units with the idea that new content is made available on Monday, and all assignments will be due no later than Saturday at midnight central time. There will be a synchronous discussion group held each Friday morning via zoom at 8 am central time. There will also be an asynchronous online forum if you prefer that modality for discussion. **You must participate in one or the other each week.**

Please note that since our zoom session is early on Friday morning, we will NOT be meeting on April 15th (which is Good Friday), and that is the beginning of an extensive break for Easter and the mid-semester RFS, with new content on May 2nd.

Plagiarism

"Plagiarism is the dishonest act of presenting the words or thoughts of another writer as if they were your own.... If you quote from anything at all...you must put quotation marks around it, or set it off from your text. If you summarize or paraphrase an author's words, you must clearly indicate where the summary or paraphrase begins and ends.... In every instance you must formally acknowledge the written source from which you took the material." [Quoted from James A. W. Heffernan and John E. Lincoln, *Writing: A College Handbook* (New York: W. W. Norton, 1982), p.457.]

Some examples of plagiarism could include:

- Copying from a source text (whether online or offline) without proper acknowledgment.
- Turning in another student's work with or without that student's knowledge.
- Copying materials word-for-word from a source text, supplying proper documentation, but leaving out quotation marks.
- Paraphrasing materials from a source text without appropriate documentation.
- Turning in a paper copied from a website.
- Recycling your own work from a previous assignment, without permission of the instructor or proper citation

If instances of cheating or plagiarism are detected, one of the disciplinary actions shall follow: either the instructor records a failure for the assignment or examination, or the instructor records a failure for the course. In either case, the instructor shall bring the matter to the Office of the Academic Dean and the Office of the Dean of Students, and the question whether further disciplinary action should be considered will be determined in consultation with the instructor, the Office of the Academic Dean, and the Office of the Dean of Students. See the current Student Handbook for more details on this matter.
